About me. Highly motivated and enthusiastic 3th year computer science student with a passion for learning and a strong interest in programming. I am a team player with excellent communication skills and a strong work ethic, always striving to exceed expectations and achieve my goals.

SKILLS

Languages:

Russian

English

Spanish

Programming languages:

C++, Python, HTML, CSS, JavaScript, Kotlin, SQL

Related subjects:

Mathematical Statistics, Theory of Probability, Discrete Mathematics, Stochastic process, Graph Theory

EDUCATION

2019 - 2024 Moscow, Russia	**RUDN University** *Faculty of Sciences* Applied Mathematics and Computer Sciences
2018 - 2019 Quito, Ecuador	**National Polytechnic School (Ecuador)** *Preparatory Faculty* Courses: Fundamentals of Mathematics, Physics, Chemistry and Geometry

ARTICLE

- Leon, J. Interdisciplinary Applications of the Reaction-Diffusion Equation, and its Solution Methods. Problems of the modern world through the eyes of youth (*In russian*). 2020.172-184. https://repository.rudn.ru/ru/records/article/record/90418/

ACHIEVEMENTS

- Winner of the Open Olympiad in Mathematics (2019).
- Winner of "RUDN Brilliant Students" (2019-2020 and 2020-2021): scholarship for academic excellence.
- Socially Active Student: "Actively participated in cultural events organized by the university, including multiculturalism concerts to promote diversity and cultural awareness".

PET PROJETCS

Dancing Bachata

Technologies: HTML, CSS, JavaScript, and Figma.

Description: the website will include a data base of bachata songs with Russian translations, a directory of dance teachers and schools, and a guide to where to dance in Moscow. I am also planning to add a virtual store to sell clothes for dancing.

Responsibilities: I'm the only maintainer of this project. I have already made mockup design in Figma. Now I'm working on the first draft of project's structure.

Demo: **https://disk.yandex.ru/d/ky6bkQjR0uYlMQ**

DELE

Technologies: Git, Gradle, Kotlin.

Description: mobile application to learn Spanish with chatbot integrated with ChatGPT api. The application is dedicated to help to prepare for DELE language exam. Killer feature of the app is a ChatGPT-based chatbot that corrects grammar mistakes.

Responsibilities: I'm android app developer in a team of 4: backend developer, android developer, philologist and project manager.

Note: this is not open-source project, so sources are stored in private github repository.

Demo: **https://disk.yandex.ru/d/bItRRMXzITtMtA**

INTERESTS

- My interests include specializing in the field of artificial intelligence, specifically in the area of machine learning. I am actively seeking opportunities to expand my knowledge and skills in this area.
